

# Household Cleaning

Ez-clean can be used as a multi-purpose cleaner. It is made of **live** bioenzymes and should not be used with anti-microbial products or it will die off and be ineffective. All that is required is moisture and time to do it's work. Walk away and leave it to dry in place, rinsing is not required.

Ez-clean does more than simply mask odors, it eliminates them without harsh chemicals. There are MANY ways you can use ez-clean around the house. A few are outlined below.

## Application of ez-clean

Removes Smells (garbage cans, fridges, freezers, plastic containers, garburators, toilets, etc.):

- Simply spray or pour full strength ez-clean and leave to dry in place.

Sanitizes Dishwashers :

- Pour 1-2 ounces of ez-clean in the bottom of the dishwasher. Run while empty without soap.

Tile Grout :

- Use either full strength or dilute 1:10 to use on grout. Soak it, then leave to dry.

Front Load Washing Machines :

- Spray the inside door rim to remove smells from trapped fluid and items left in the seal. Leave to dry.

Floors :

- Dilute up to 1:64 in a mop bucket, leave to dry.

The possibilities are endless!

## Additional Information

- Smoke or strong cooking odors are easily removed by spraying ez-clean into the air once a day!

## ez-clean uses

- dog run and kennels
- decks
- fences
- barns
- stock trailers
