

"I'm not always the easiest person to convince that something works, I need to see it myself. Well that just happened this morning. Yesterday I applied **ez-clean** to a pet stain on our rug that had been there for some time now. We tried a couple different things to get it out, but nothing removed it completely. The wife has been bugging me to replace it completely. While she has been away for training for the past couple days, I thought I would give the **ez-clean** a try. So I wet the area and applied the **ez-clean**, covered it with plastic wrap and then placed a book on it. 20 hrs later I removed the book and plastic wrap. I just saved buying a carpet. I believe "

- Home owner in Lacombe

"My cat snuck into my car unnoticed and stayed there for two days. The cat was fine but the carpet was soaked in urine. I poured a full cup of **ez-clean** on it and let it sit. The smell is gone."

- Farm owner in Bowden

"I kept goats in two stalls in my barn and the goat smell was overwhelming. I put 250mL of **ez-clean** into a 1L of water, sprayed down the stalls and let it sit overnight. The smell was gone. Thank you **ez-clean**."

- Ranch owner in Spruce View

## THE HOSER

(How much more Canadian can you get?)

"Our yard is synthetic grass and gravel. We have four dogs and use **ez-clean** in a spray nozzle attached to a the garden hose. **Ez-clean** has taken the odour away and we are able to bbq and enjoy our back yard again."

- Dog owner in Spruce Grove

## What is ez-clean?

**ez-clean** is a ready to use, concentrated fully formulated liquid blend of microbes made to eliminate smells and degrade organic waste. Wow that was a mouth full.

For those of you who were looking for a totally kick butt product, that is made by people who know stink, well look no further. The safe, naturally occurring bacteria in **ez-clean** are present in high numbers to handle difficult organic problems, smells, or breaking bad situations that you may have.

Simply put....

### ez-clean removes smells!

## Dilution (aka spread the love)

**ez-clean** can be sprayed on your dog, full strength, to get rid of the smell of skunk or can be diluted all the way down to 1:64 for outdoor applications.

### Suggested Dilution:

Outdoor Application: 1:32 to 1:64

Indoor Application: full strength to 1:10

Laundry: 1 to 2 floz

### This is a living product.

The naturally occurring live bacteria in **ez-clean** can help remove stains and odours in our lives. However we need to be aware of how to handle **ez-clean** so we don't render it ineffective. Nice way of saying you can kill it.

- Do not freeze or boil
- Do not mix with a disinfecting chemical.
- Store at room temperature out of direct sunlight.
